

Ballylinch Stud - updated requirements regarding EI

- All mares, including Walk-Ins, must have received a booster vaccination for influenza within the last 6 months.
- Mares which have not received a booster within the last two years must have received the first two vaccinations of a new primary course prior to covering.
- All vaccinations, including the primary course, first and annual booster vaccinations must be recorded in the passport.
- The passport must accompany the mare on her arrival.
- Please inform the stud office of the mare's last flu vaccination date when booking in covers and a copy of the passport Flu vaccination page should be sent to the stud office via fax or email.
- Pregnant mares should have received a booster within the last 6 months and a booster within 4-6 weeks of foaling for protection of the foal.
